

# Welcome to YEAR 4

 ATHENS &  ANKARA

In Year 4, we have two classes: Athens and Ankara. Mr Chitranjan and Mr Toghil are our class teachers, and we have additional support from Mr Ahmed and Mr Gottardo. We have a great team of teachers and teaching assistants who are committed to helping every child fulfil their potential, and enjoy their learning.

We work hard to provide a scheme of work that deepens our understanding and furthers our fluency across all areas of our imaginatively planned curriculum. We have a range of interesting topics in our wider curriculum, including: Ancient Greece, Ancient Rome, Investigating India and Marvellous Madagascar.

Our science curriculum includes investigations into scientific enquiry, states of matter, moving and growing, changing sound, living things and their habitats and circuits and conductors.

Art & music is taught by a specialist teacher in our wonderful Art studio, which we visit every other Wednesday for the whole day.

We have PE lessons on Thursday and Fridays to encourage the development of physical literacy, teamwork and sportsmanship.
