Animals

Key Vocabulary	Definition
Dinosaurs	A type of reptile that became extinct 65,000,000 years ago. There were different types of dinosaur, some of which were extremely large.
Minibeasts	Is a small animal without backbones such as spiders, snails, slugs, beetles, centipedes and worms.
Pattern & Camouflage	Is the use of any combination of materials, coloration, or illumination for concealment, either by making animals or objects hard to see.
Farm Animals	Animals that are raised on a farm, such as cows and hens.
Jungle/Zoo Animals	Is a facility in which animals are housed within enclosures, displayed to the public; such as a lion, gorilla, monkey and tiger.
Sea Animals	Any of numerous animals inhabiting the sea, such as fish, sea horse and octopus.
