

Welcome to YEAR 4

In Year 4, we have one class: Athens. Miss Mohamoud is our class teacher, and we have additional support from Mrs D'Cruz and Mrs Naveen. We have a great team of teachers and teaching assistants who are committed to helping every child fulfil their potential and enjoy their learning.

We work hard to provide a scheme of work that deepens our understanding and furthers our fluency across all areas of our imaginatively planned curriculum. We have a range of interesting subjects in our wider curriculum, including History, Geography, French, RE and PSHE

Our Science curriculum includes investigations into scientific enquiry, digestion and food, moving and growing, changing sound, living things and their habitats and circuits and conductors.

Art, DT & Music is taught by a specialist teacher in our wonderful Art studio, which we visit every other Wednesday for the whole day.

We have PE lessons for all on Monday and Swimming on Fridays to encourage the development of physical literacy, teamwork and sportsmanship.
