

Welcome to YEAR 2

We have one Year 2 class called Lima with Ms Felix and Ms Horgan-Harker who support us in our learning.

Our teachers plan exciting and creative lessons to challenge and encourage us to be independent learners and thinkers. We attend daily phonics lessons in Year 2 and our text-based literacy lessons help to foster a love of reading and inspire our writing. In maths, we follow the White Rose scheme of work. This has been carefully planned to develop and deepen our maths fluency, reasoning and problem-solving skills.

In our geography lessons this year, we will be learning about our local area and our world. In our history lessons we will be finding out about the history of flight, the monarchy and what school was like long ago.

Art & music are also part of our learning, it allows and gives Year 2 great opportunities to develop their creativity through their imagination, while still learning new skills and developing ways in which they are able to explore new tools and equipment.

We have two PE lessons a week to develop our physical abilities and frequently we are able to benefit from the expertise of a sports coach during these lessons.

We are all excited about the year ahead!
